Join hands with Paryavaran Kavach to create a cleaner, greener, and more sustainable future.

## Cremation Pyre

₹ 145000/- Number

Customers can contact us obtaining superior grade **Cremation Pyre** at the most competitive prices. Our Eco-Friendly Cremation Pyres are engineered alternatives to traditional wood-based cremations, drastically reducing emissions and wood usage.

### Cremation Pyre Features:

- Constructed from heat-resistant stainless steel or RCC
- Reduces wood consumption by 60-70%
- Faster cremation process (under 1.5 hours)
- Smoke reduction and secondary air supply for clean combustion

**Pyre Applications:** Cremation Grounds and Municipal Crematoriums, Eco-spiritual Centers, Rural Development & Gram Panchayat Initiatives, etc.

These pyres are being adopted under green cremation missions in India, Nepal, and Sri Lanka and by NGOs promoting sustainable last rites globally.

### Product Details:

|                                 |  |
|---------------------------------|--|
| Ignition System                 | Manual or Automatic ignition             |
| Surface Finish                  | Polished                                 |
| Material                        | Constructed from bricks, stone, or Steel |
| Packsize(no. of item in a Pack) | 1  |
| Ease of Assembly                | Modular or Pre-assembled                 |

## Waterless Urinal Kit

₹ 4500/- Pieces

Want to obtain **Waterless Urinal kit** at market's lowest prices? Paryavaran Kavach's Waterless Urinal Kit provides an innovative solution for water conservation and hygienic sanitation.

**Waterless Urinal Kit Applications:** Public Washrooms, Airports, Shopping Malls, Corporate Offices and Educational Institutes, Petrol Pumps, Railway Stations, Smart City Projects, etc. Our company provides it across all over india.

### Urinal Kit Features With:

- Saves up to 151,000 liters of water per urinal per year
- Odor-sealing technology (mechanical trap or cartridge)
- Easy retrofit on existing urinals
- Low maintenance and eco-friendly

Highly recommended in **urban green building projects and LEED-certified institutions** in India, UAE, Singapore, and USA due to their sustainable impact.

| Usage                  | Suitable for public and Private restroom |

## FRP Bio Digester

Our **FRP Bio Digester Tanks** are eco-friendly waste management systems that convert human waste into biogas and pathogen-free effluent. We make available Bio Digester for all biological and waste management solutions.

### Bio Digester Features:

- Leak-proof and rust-resistant FRP construction
- Anaerobic bacterial culture-based waste digestion
- Odorless, maintenance-free, and long-life solution
- Custom-built capacity from 500 to 10,000 liters

### Applications:

- Remote Military Camps
- Railways and Airports
- Government School Toilets
- Mobile Toilets and Labour Colonies

Endorsed by **DRDO**, these digesters are in demand in **India's rural sanitation programs**, as well as in developing nations across Asia and Africa with limited sewage infrastructure.

### Product Details:

|                       |  |
|-----------------------|--|
| Material              | Fiber Reinforced Plastic                         |
| Color                 | Multicolor                                       |
| Capacity              | Varies from 1000 to 50000 liters                 |
| Installation Type     | Suitable for both above and Below ground install |
| Sludge Retention Time | 20 - 30 days                                     |

## FRP Toilet Cabin

**Paryavaran Kavach's FRP Toilet Cabins** are portable sanitation solutions made from durable and corrosion-resistant Fibre Reinforced Plastic, ideal for outdoor and temporary usage.

### Toilet Cabin Features:

- Lightweight yet strong construction
- Easy to transport and install
- Water-resistant and UV-protected surface
- Customizable with Indian/Western commode options
- Anti-bacterial interior and floor matting

### Applications:

- Construction Sites, Events, Highways
- Government Sanitation Projects
- Disaster Relief and Refugee Camps
- Schools in Rural Areas

Bulk buyers in India (Swachh Bharat Mission), Bangladesh, African countries, and Gulf regions use these extensively due to ease of deployment and low maintenance.

### Product Details:

|                      |                   |
|----------------------|-------------------|
| Wall Thickness       | 3 Mm To 6 Mm      |
| Corrosion Resistance | Yes               |
| Shape                | Square            |
| Built Type           | Prefab            |
| Supply By            | Paryavaran Kavach |

## Puff Toilet Cabin

We are positioned amongst eminent Suppliers owing to best class **Puff Toilet Cabin** that we offer. Our Puff Toilet Cabins are pre-fabricated, ready-to-install portable sanitation cabins made from insulated puff panels, offering safety, hygiene, and convenience in remote and urban areas alike.

### Cabin Features:

- Strong, insulated puff panels for weather resistance
- Available in single, double, or multi-cabin formats
- Easy installation, dismantling, and relocation
- Inbuilt features: ventilation fan, lights, water tank (optional)
- Leakproof and low-maintenance design

**Get it for Use:** Infrastructure & Road Projects, Outdoor Festivals and Events, Labour Camps, Municipal Corporations, Construction and Mining Sites.

### Product Details:

|                     |                               |
|---------------------|-------------------------------|
| Internal Dimensions | 1100mm x 1100mm x 2000mm      |
| Supplier            | Paryavaran Kavach             |
| Height              | 7 - 8 Feet                    |
| Window              | Optional polycarbonate window |
| Built Type          | Prefab                        |

## Animal Incinerator

Our **Animal Incinerators** are available with safe and hygienic disposal of animal carcasses in compliance with CPCB guidelines. These systems ensure complete combustion of biological matter with minimal environmental impact, eliminating risks associated with disease spread or contamination.

### Incinerator Features:

- **Dual-Chamber Combustion:** Ensures complete burning with reduced emissions
- **High Temperature Operation (800°C - 1100°C):** Rapid incineration for complete disinfection
- **Robust Build Quality:** Built with heat-resistant alloys and corrosion-resistant body
- **Odor & Smoke Control:** Fitted with pollution control devices as per requirements
- **Custom Capacities:** Available from 50 kg/hr to 500 kg/hr and more

### Our Animal Incinerator is Ideally Designed For:

- Veterinary hospitals and clinics
- Slaughterhouses and meat processing units
- Zoos, dairy farms, poultry farms
- Municipal animal control departments

### Product Details:

|                          |  |
|--------------------------|--|
| Maintenance Requirements | Regular cleaning, occasional brick replacement |
| Control Panel            | Digital control panel with touch screen        |
| Combustion Air Supply    | Forced air fan for efficient combustion        |
| Stack Height             | 5 - 6 meters                                   |
| Burn Time                | 2 - 4 hours (depending on material)            |

## Bio Medical Waste Incinerator

Our **Bio Medical Waste Incinerators** are designed to handle hazardous waste from healthcare facilities, preventing bio-contamination and reducing landfill pressure. The systems are fabricated as per CPCB norms, ensuring safe disposal without harming public health or the environment.

### Waste Incinerator Features With:

- **Temperature-controlled Combustion:** Efficient operation at 800°C to 1200°C
- **Dual-Chamber System:** Ensures complete combustion of infectious waste
- **Emission Control System:** Optional scrubbers, filters, and chimney for pollution control
- **User-Friendly Design:** Simple operation and maintenance, digital control panel (optional)
- **Steel Cladding:** Rust-proof and weather-resistant for outdoor use

### Incinerator We Serve For:

- Hospitals, dispensaries, nursing homes
- Pathological and diagnostic labs
- Research laboratories and pharma units
- Government and private healthcare centers.

### Product Details:

|                       |                                |
|-----------------------|--------------------------------|
| Combustion Chambers   | Primary and Secondary chambers |
| Average Burn Out Time | 1 - 2 hrs                      |
| Supply By             | Paryavaran Kavach              |
| Usage                 | Commercial, Medical Camps      |
| Temperature Range     | 800°C to 1200°C                |

## Food Waste Composting Machine Kitchen

Our **Food Waste Composting Machines** are the perfect solution for bulk generators of kitchen waste. They transform organic waste into compost within 24 to 48 hours, significantly reducing landfill burden while producing valuable soil conditioner.

### Composting Machine Features With:

- **Fully Automatic Operation:** Minimal human intervention is needed
- **Odorless and Hygienic:** Built-in deodorization system
- **SS304 Food-grade Construction:** Corrosion-resistant and long-lasting
- **Quick Composting Cycle:** Converts waste into nutrient-rich compost in a single day
- **Energy Efficient:** Low power consumption for continuous operation

### Our company ideally serves it for:

- Corporate canteens, hotels, restaurants
- Malls, supermarkets, food courts
- Large residential societies
- Food processing industries and institutions

### Product Details:

|                        |   |
|------------------------|---|
| Odor Control           | Activated carbon filter, Ventilation system |
| Material               | Mild Steel                                  |
| Pre-Treatment Required | Shredding or Chopping                       |
| Control Panel          | Digital or touch screen control             |
| Temperature Range      | 30°C to 70°C                                |

## Human Crematorium System

**Paryavaran Kavach** brings innovation to traditional cremation systems with our Electric & Gas-based **Human Crematoriums**. These are designed to offer clean, efficient, and respectful cremation solutions that are significantly more eco-friendly than wood-based pyres.

### Crematorium System Featured With:

- **Multiple Fuel Options:** Electric, LPG, PNG, or Hybrid systems available
- **Fast Cremation Process:** 60-90 minutes per body with minimal emissions
- **Pollution Control Units:** Chimney with wet scrubber system to minimize smoke and particulates
- **Low Operational Cost:** Economical compared to traditional methods
- **Custom Structure Design:** Aesthetic, weatherproof enclosures available for urban settings

### Crematorium System Ideal For:

- Municipal cremation grounds
- Public trusts and NGOs
- Rural and urban religious sites
- Smart city and urban development projects

### Product Details:

|                          |   |
|--------------------------|---|
| Maintenance Requirement  | Regular cleaning of burners, Exhaust, and Cooling units |
| Load Capacity            | Up to 200 kg per body                                   |
| Smoke Stack Height       | 10 - 15 meters  |
| Fuel Type                | Natural gas, LPG, electric                              |
| Time Per Cremation Cycle | 1.5 to 2 hours per cycle                                |

## Sanitary Napkin Pad Incinerator

Designed to ensure women's hygiene and dignity, our **Sanitary Napkin Incinerators** provide safe disposal of sanitary waste on-site without contamination or manual handling. Compact, efficient, and essential in all female-centric spaces.

### Incinerator Featured With:

- **Wall-mounted & Tabletop Models:** Ideal for indoor installations
- **Rapid Burning Cycle:** Destroys pads in 5–10 minutes
- **Odor-Free Disposal:** Equipped with smoke filters and ceramic chamber
- **Safe Operation:** Automatic shut-off, overheat protection
- **Power Efficient:** Runs on minimal electricity

### Ideal For:

- Girls' schools, colleges, hostels
- Office premises, shopping malls
- Public restrooms, railway stations
- Hospitals and health centers

### Product Details:

|                   |   |
|-------------------|---|
| Mounting Type     | Wall- mounted with bracket                                    |
| Country of Origin | India   |
| Power Consumption | 800W – 1500W  |
| Burning Time      | 5 - 10 minutes per cycle                                      |
| Usage Location    | Suitable for offices, Schools, Hospitals, and Public restroom |

## Solid Waste Incinerator

Our **Solid Waste Incinerators** are engineered for the controlled and safe combustion of mixed solid waste including paper, plastics, textiles, and contaminated materials. Built to handle continuous, high-volume waste loads efficiently.

### Waste Incinerator Featured With:

- **Heavy Duty Construction:** Withstands continuous usage and high temperatures
- **Fuel Efficient:** Optimized burners for diesel, gas, or biomass
- **Emission Control Systems:** Meets pollution norms with optional scrubbers and filters
- **High Throughput:** Suitable for 100 kg/hr to 1000 kg/hr operations
- **Easy Ash Removal System:** Safe and user-friendly disposal mechanism

### Ideal For:

- Industrial parks and manufacturing units
- Municipal and semi-urban waste management authorities
- Army camps, offshore units, disaster zones
- Remote hotels, construction sites, and institutions

### Product Details:

|                      |  |
|----------------------|--|
| Application          | Ideal for waste treatment in Municipalities, and Hospitals |
| Voltage              | 240 V  |
| Maintenance Required | Easy access for routine maintenance                        |
| Manufacturer         | Paryavaran Kavach  |
| Material             | Stainless Steel  |

## Sewage Treatment Plant

At **Paryavaran Kavach**, we manufacture and supply highly efficient and eco-friendly **Sewage Treatment Plants (STPs)** that cater to residential, commercial, and industrial segments. Our STPs are engineered to treat wastewater by removing physical, chemical, and biological contaminants, thereby allowing the reuse or safe discharge of water into the environment.

### STP Features:

- **Compact and Modular Design:** Easily installable in limited space areas with minimal civil work.
- **Advanced Treatment Technology:** Uses MBBR, SBR, or MBR processes depending on site requirements.
- **Low Power Consumption:** Energy-efficient operation reduces operating costs.
- **Fully Automated Systems:** PLC-based panels for smart monitoring and control (optional).
- **Eco-compliant Discharge:** Treated water adheres to Pollution Control Board (PCB) norms.

### Our company provide STP for:

- Residential townships, apartments, and villas
- Hotels, resorts, and restaurants
- Hospitals, schools, and colleges
- Industrial parks, factories, and commercial complexes

### Product Details:

|                         |  |
|-------------------------|--|
| pH Range                | 6.5 to 8.5                                   |
| Capacity                | Customizable based on required               |
| Maintenance Requirement | Regular cleaning, Replacement of membranes   |
| Tank Materials          | Reinforced concrete, FRP, or Stainless steel |
| Country of Origin       | India  |

## Urinal Bio Block

Keen on procurement of **Urinal Bio Block**? Our Urinal Bio Blocks are designed for commercial and institutional urinals to eliminate foul odors and break down organic waste using natural enzymes, thus reducing maintenance.

### Bio Block Features:

- 100% biodegradable and eco-safe
- Controls odor for up to 30 days per block
- Reduces uric scale buildup and plumbing blockages
- Water-saving (ideal for waterless urinals)
- Available in multiple fragrances (lemon, mint, floral)

**Where to Use:** Government Buildings, Corporate Offices, Commercial Malls, Public Toilets, Schools and Colleges.

### Product Details:

|                 |   |
|-----------------|---|
| Effect Duration | Lasts up to 30 days per block             |
| Type            | Solid block                               |
| Fragrance       | Lemon, Ocean breeze, or Other fresh scent |
| Finishing       | Polished                                  |
| Packaging       | Individual wrappers or Bulk packing       |

## Mobile Bio Toilet Van

**Paryavaran Kavach's Mobile Bio Toilet Vans** are complete sanitation-on-wheels solutions powered by modern bio-digester technology, providing a hygienic and eco-friendly toilet system for locations lacking permanent infrastructure.

### Toilet Van Features:

- Built-in Bio-digester tanks that convert waste into water and gas
- Optionally powered by solar panels
- Available in 2/4/6 seater models (men, women, unisex)
- Water storage tank, wash basin, and exhaust fans included
- Government and NGO-customizable branding options

**Get it for Use:** Rural Development Programs, Disaster Relief & Medical Camps, Temporary Workforce Sites, Highway Stops, Outdoor Events & Political Rallies, etc.

Our company, Kavach's which means protects, keeps the environment clean by providing a sublime biodegradable solution.

### Product Details:

|                  |                                    |
|------------------|------------------------------------|
| Flooring Tye     | Anti-slip vinyl or Rubber flooring |
| User Interaction | Touchless faucets, soap dispensers |
| Color Option     | Multicolor                         |
| Style            | Modern                             |
| Supplier         | Paryavaran Kavach                  |

## Air Freshener

Far-famed for outstanding range of **Air Freshener** are a leading name in this trade. Our Air Fresheners are made to refresh indoor spaces with natural fragrances while maintaining indoor air quality through chemical-free and aerosol-free formulations.

### Freshener Features:

- CFC-free and eco-conscious
- Available in spray bottles and dispenser refills
- Fragrances: Lavender, Lemon Grass, Ocean Breeze, Rose, etc.
- Long-lasting scent retention
- Bulk packs for commercial premises

**Where to Use:** Hotels & Hospitality Chains, Healthcare Facilities, Office Meeting Rooms, Conference Halls, and Shopping Malls.

### Product Details:

|                   |                              |
|-------------------|------------------------------|
| Color             | Clear liquid                 |
| Lasting Effect    | Provides freshness for hours |
| Brand Name        | ZeroDor Care                 |
| Temperature Range | 5°C to 35°C                  |
| pH Level          | Neutral                      |

## Floor Cleaners

**Paryavaran Kavach's** amongst foremost suppliers are far famed for the outstanding **Floor Cleaners**. The Floor Cleaners are high-performance cleaning liquids that disinfect and shine simultaneously, ensuring a bacteria-free and fresh-smelling environment.

### Cleaners Features:

- Effective against 99.9% germs and viruses
- Anti-slip and residue-free formula
- Lemon, Neem, and Lavender fragrance options
- Safe for marble, granite, tiles, PVC, and concrete floors
- Large container packs for B2B clients

**Where to Use:** Government Hospitals & Clinics, Warehouse & Logistics Centers, Industrial Facilities, Residential Societies, Railways & Bus Terminals, etc.

### Product Details:

|                    |                         |
|--------------------|-------------------------|
| Concentration      | Highly concentrated     |
| Safety Precautions | Avoid contact with eyes |
| Country of Origin  | India                   |
| pH Level           | Neutral                 |
| Fragrance          | Fresh and pleasant      |

## Kitchen Cleaners

We are positioned amongst the eminent Suppliers owing to best in class Kitchen Cleaners that we offer. Our **Kitchen Cleaners** are specially developed for deep degreasing and sanitizing food-contact surfaces while being non-corrosive and safe for use in food zones.

### Kitchen Cleaners Features:

- Removes oils, fats, and tough grime
- Non-toxic and non-abrasive formula
- Suitable for kitchen tops, exhaust hoods, ovens, and chimneys
- Fresh citrus aroma and anti-bacterial action
- Supplied in 1L to 20L containers for bulk usage

**We Serve It:** Nationally and Internationally For Restaurant Chains, Industrial Canteens, Catering Units, Food Processing Units, Hotels & Commercial Kitchens

### Product Details:

|                    |  |
|--------------------|--|
| Target Surface     | Kitchen countertops, stoves, Sinks, and Appliances |
| Supplier           | Paryavaran Kavach                                  |
| Form               | Liquid   |
| Application Method | Spray, Wipe with a cloth or Sponge                 |
| Alcohol Content    | None   |

## Toilet Bowl Cleaners

Our **Toilet Bowl Cleaners** are thick, high-viscosity liquids designed to cling to toilet bowl surfaces and deliver effective stain and odor removal. Our company, Paryavaran Kavach, provides toilet cleaners across all over india at best price.

### Cleaner Features:

- Kills 99.9% germs, fungi, and bacteria
- Removes limescale, rust, and stubborn stains
- Septic tank safe
- Powerful cleaning with minimal scrubbing
- **Fragrance options:** Marine Fresh, Herbal, and Floral

We Serve It Nationally and Internationally For Public Toilets (Railway/Bus Stations), Hotels & Resorts, Office Buildings, Institutions, Schools, and Industrial Washrooms

### Product Details:

|                    |   |
|--------------------|---|
| Formulation        | Gel-based   |
| Usage Instructions | Apply directly to toilet bowl, or Scrub             |
| Active Ingredients | Sodium Hypochlorite, Surfactants, Deodorizing agent |
| Cleaning Action    | Removes hard water stains, and Toilet bowl buildup  |
| Supplier           | Paryavaran Kavach                                   |

## Container Cabin

Far-famed for outstanding range of **Container Cabin** are leading name this trade. **Paryavaran Kavach** offers premium-grade Container Cabins, designed for modular, movable, and sustainable space solutions.

### Container Cabin Features:

- Made with high-grade mild steel or GI structure
- Thermal insulation and waterproofing
- Ergonomic interiors with electrical fittings
- Optional AC, desk, windows, and furniture
- Weather-resistant paint coating

### Applications:

- Used as temporary site offices, residential units, classrooms, or kiosks
- Ideal for construction companies, mining zones, and rural deployment
- Can be customized for disaster relief shelters

### Market Relevance:
